

in writing of the name of their accredited veterinarian at the time the participant enrolls in the ISA program and within 15 days of any change in accredited veterinarians.

(2) Cooperate with and assist in periodic on-site disease surveillance, testing, and reporting activities for ISA, which will be conducted by their APHIS accredited veterinarian or a State or Federal official as directed by the ISA Program Veterinarian.

(3) Develop and implement biosecurity protocols for use at all participant-leased finfish sites and participant-operated vessels engaged in aquaculture operations throughout Maine. A copy of these protocols shall be submitted to the ISA Program Veterinarian at the time the participant enrolls in the ISA program and within 15 days of any change in the protocols.

(4) Develop, with the involvement of the participant's accredited veterinarian and the fish site health manager, a site-specific ISA action plan for the control and management of ISA. A copy of the action plan shall be submitted to APHIS for review at the time the participant enrolls in the ISA program and within 15 days of any change in the action plan.

(5) Participate in the State of Maine's integrated pest management (IPM) program for the control of sea lice on salmonids. A copy of the management plan developed by the participant for the State IPM program shall be submitted to APHIS for review at the time the participant enrolls in the ISA program and within 15 days of any change in the management plan.

(6) Submit to the ISA Program Veterinarian at the time the participant enrolls in the ISA program a complete and current fish inventory information for each participant-leased finfish site with site and cage identifiers. Fish inventory information must include the numbers, age, date of saltwater transfer, vaccination status, and previous therapeutic history for all fish in each participant-leased finfish site.

(7) Maintain, and make available to the ISA Program Veterinarian upon request, mortality data for each participant-leased finfish site and pen in production.

(8) Cooperate with and assist APHIS in the completion of biosecurity audits at all participant-leased finfish sites and participant-operated vessels involved in salmonid aquaculture.

#### **§ 53.11 Payments arising from low pathogenic avian influenza; conditions for payment.**

In the case of low pathogenic avian influenza related to a 2002 disease situation in Virginia associated with the H5 or H7 virus, the Administrator may pay claims, subject to available funding, as follows:

(a) *For contract growers.* The Administrator may pay a contract grower up to 100 percent of the losses identified in accordance with the LPAI compensation plan, up to the amount that the owner is eligible to receive before grower compensation is deducted.

(b) *For owners.* The Administrator, in accordance with § 53.4, may pay an owner up to 50 percent of the value of the poultry destroyed plus 50 percent of the costs of destruction and disposal of the poultry, in accordance with the LPAI compensation plan, minus the amount paid in accordance with paragraph (a) of this section to the contract grower of that poultry.

(c) *Conditions.* Payments to be made in accordance with paragraph (a) or (b) of this section are conditioned on each claimant's complying with all applicable requirements of this part and, additionally, agreeing to and complying with the specific conditions set forth in the "Avian Influenza Depopulation Agreement" regarding cleaning and disinfection, restocking, surveillance, and other disease prevention measures.
